

Group Clinic Agreement

By participating in this group clinic, I agree that:

1. I am happy to share relevant information about my health condition. For example, this might include my blood pressure or cholesterol levels. These results appear on a “results board” which supports group discussion and my learning. These results will be displayed on the results board in the group clinic, all in attendance will see these.
2. I am happy to have a one-to-one discussion with the clinic team about my concerns. I understand other members of the group listen, and in turn I listen to their one-to-one discussions so that we can all benefit from hearing and understanding our common problems and finding solutions.
3. I am under no obligation to share any other personal information with the group unless I choose to do so and that if I have health concerns that I don't want to discuss in the group setting, I may ask to discuss them privately in a 1:1 consultation.
4. At any time, I can withdraw my consent to participate in the group clinic and book a 1:1 consultation.
5. All information I learn about group members is confidential. I agree that I will not record nor share any information about other members of the group in conversations outside the group verbally, on social media or any other public forum.
6. If I am more than 5 minutes late, I will not be able to join the clinic, and I will need to book into another clinic.

If, after reading this agreement, you no longer wish to attend the group clinic, please contact us via S1online or the NHS APP or by telephone so that we can allocate your place and help another person keep well and improve their health.
